

KÄRCHER Puzzi 30/4

The Puzzi 30/4 is the modern answer to textile cleaning problems. Specifically designed for large textile areas, it represents a user-friendly and economic cleaning solution. Designed to ensure an ergonomic, effortless and time saving operation.

Features:

- Comfortable handling and ergonomic operation due to the upright-concept.
- Short drying times, up to 30% faster drying time than other machines.
- Removable waste water container.
- Fresh water tank filling level display.
- Flexible floor nozzle.
- Optimal health protection of users due to integrated filter with HEPA (Standard).
- Operation in noise-sensitive areas possible, low noise level of 66dB (A) (- 5 dB(A) less than the predecessor).
- Easy transport is guaranteed, the machine can be moved in a horizontal position – also with a full fresh water tank.
