

KÄRCHER BD 50/70 R Bp Classic

For an area performance of up to 2,000 m² per hour: the battery-operated BD 50/70 R Classic ride-on scrubber drier with disc brush.

The extreme ease of use through specially colour-coded control elements is one of the outstanding features of our battery-operated BD 50/70 R Classic ride-on scrubber drier. Its compact, narrow construction style facilitates handling and transport and ensures a high degree of manoeuvrability and agility. This makes this machine in the 70-litre class a real alternative to walk-behind machines. Practical details such as the Home Base, which facilitates the transport of manual cleaning equipment using hooks, or the likewise optionally available bin bag holder and a pre-sweep mop complete the concept. Please note that batteries and charger must be ordered separately.

Features:

Simple operation

- Self-explanatory symbols and clear control panel.
- Brief familiarisation phases.
- Simple, yellow colour-coded control elements make the machine easy to use.

Disc brush engineering

- Rugged construction style with integrated disc brush head.
- High area performance thanks to large working width.
- Brush replacement via pedal ejection.

Compact, slim design

- Extremely manoeuvrable machine.
- Clear view of surfaces to be cleaned.
- Easy to transport.

Optional accessories: pre-sweep mop

- Picks up dry dirt, thus supporting the cleaning process.
- Helps prevent blockage of the suction channel.

Standard Features / Accessories
