

KÄRCHER HD 6/15 G Classic

The new Classic range with combustion engine can be used where there is no access to a power supply. This makes it the ideal solution for construction, industry and agriculture.

Features include:

High level of autonomy

- Can be used independently of power supply thanks to a powerful petrol motor.
- Using optional accessories, machines are capable of drawing water from dams, ponds and lakes.

Accessories concept

- Practical storage for hose and high-pressure lance directly on the machine.
- Storage compartment for nozzles, tools and other small parts.

Outstanding mobility

- Ergonomic push handle for easier transport.
- Large wheels with pneumatic tyres for uneven surfaces.
- Wheel layout allows transport of the machine on stairwells.

Durable and easy to service

- Robust crankshaft pump with tried-and-tested Kärcher quality.
- Large water filter protects the pump from damage.
- Thermostat valve to protect the pump from overheating in circuit operation.

Standard Features / Accessories

10m High-pressure hose
850 mm Stainless steel spray lance
Easy!Force trigger gun
Ant twist system (AVS)
Power nozzle

Part no. 1.187-900.0

TECHNICAL SPECIFICATIONS

Dimensions (L x W x H)

799 x 637 x 1097 mm

Pressure

150/15 bar/MPa

Water flow rate

600 l/h

Weight

40 kg

Motor rating, max.

4,1 kW

Engine type

G200FA / petrol

Max. Water feed temperature

up to 60 °C
