

KÄRCHER BV 5/1 Bp

Powerful battery-powered BV 5/1 Bp Backpack vacuum. Designed with ergonomic, highly comfortable carrying frame for cleaning in the most confined spaces.

Our new, powerful, BV 5/1 Bp battery-powered Backpack vacuum is the first choice where narrow spaces hinder cleaning work, whether in cinemas, on aircraft, buses, trains or even stairs. The clever, ergonomic and patented carrying frame with the Air Stream Comfort system makes for easy handling, reduces heat generation on the back and at the same time prevents unwanted vibration. It can be easily adjusted for different operators and ensures a comfortable fit. Operation of the machine is also convenient, as all the important operating and additional functions such as the ecoefficiency mode or the charging status display, are controlled or monitored directly via the control panel on the waist strap.

Features:

Patented, ergonomic carrying frame

- Carrying frame with Air Stream Comfort system prevents irritating vibrations and heat build-up on the back.

Simple operation of all functions

- Control panel on the waist harness allows convenient control and monitoring of all functions.

Standard Features / Accessories

Clip system for hose extension
Fleece filter bag
Crevice nozzle
Upholstery nozzle
Telescopic suction tube
290 mm Switchable floor nozzle
Washable nylon filter (main filter)
Protection class, II
Battery
Battery charger

Part no. 1.394-219.0

TECHNICAL SPECIFICATIONS

Air flow rate	46 l/s
Vacuum	207/20,7 mbar/kPa
Container capacity	5 l
Battery	36/7,5 V/Ah
Operation time	43 min
Voltage	220-240 V
Frequency	50-60 Hz
Number of current phases	1 Ph
Rated input power for battery operation	650 W
Standard nominal width	ID-35
Sound pressure level	57 dBA
Weight	8,7 kg
Dimensions (L x W x H)	400 x 320 x 636 mm
