

KÄRCHER NT 55/1 Tact Bs

Handy, highly absorbent wet/dry vacuum cleaner with innovative, patented filter cleaning - TACT-System - with a container volume of 55 litre for all applications in the bakery and confectionery craft.

Universal usage in the entire bakery and confectionery craft, e. g. for vacuuming worktables and baking ovens or in areas where increased electrostatic charge is possible when vacuuming flour, etc - this can be reduced when electrostatically conductive accessories are used.

The PES flat pleated filter of the vacuum cleaner is very practical and offers various advantages:

- * The user can change from wet to dry vacuuming without an interruption because of filter changing as the filter unit is always situated above the fluid level and it is damp-proof.
- * The filter is easily accessible without lifting off the turbine head.
- * The flat pleated filter increases the usable volume of the 55 l container.
- * The maximum filter capacity can be used due to the auto filter clean system TACT.

The turbine is switched off automatically by the electronic fluid level control when maximum fluid level is reached.

The machine is tilt resistant and easy maneuverable because of the two big rear wheels and the two front castors. It can easily be carried thanks to its low weight.

Large On-/Off-switch as well as cable and accessory storage on the machine.

Standard Features / Accessories

- Auto shutdown when max. level is reached
- Antistatic system
- Eco filter system
- Flat pleated filter-PES
- Heat-resistant plastic container
- Bumper bar
- Push handle
- Safety class I
- Caster with brake
- TACT Filter Clean
- Maintenance -free suction motor

Part no. 1.146-700.0

TECHNICAL SPECIFICATIONS

Dimensions (L x W x H)	570 x 370 x 860 mm
Max. intake performance	1380 W
Container capacity	55 l
Frequency	50-60 Hz
Weight	15 kg
Length of cord access.	7,5 m
Air flow rate	57 l/s
Sound pressure level	63 dBA
Voltage	220-240 V
Standard nominal width	35 mm
Vacuum	235/23,5 mbar/kPa
